SUMMARY

Results-oriented Engineering Executive with a proven track record of optimizing project outcomes. Skilled in strategic project management and team leadership. Seeking a challenging executive role to leverage technical expertise and drive engineering excellence.

WORK EXPERIENCE

System Engineer, Tata Consultancy Services

Jul 2024 - Present

- Developed business logic using Java and optimized SQL queries for large-scale utility data operations.
- Executed configuration changes to align the application with evolving business and technical needs.
- Collaborated across teams to implement data-driven features and streamline automated workflows.
- Analyzed data flows and debugged system issues to enhance code reusability and predictive behavior.

EDUCATION

Bachelor of Science in Computer Science

2020 - 2024

University of Petroleum and Energy Studies

I gained hands-on experience with Python and explored core concepts of Machine Learning and Artificial Intelligence. Strengthened my problem-solving skills through DSA in C++ and applied analytical thinking in projects involving data-driven modeling, predictive systems, and advanced computing, laying a strong foundation for real-world applications in intelligent technologies.

ADDITIONAL INFORMATION

- Technical Skills:** Python, JavaScript, React, Django, Machine Learning, Critical Thinking
- Languages:** English, Hindi
- Certifications:**
- Awards/Activities:** Received the "Engineering Excellence" Award for outstanding contributions to project innovation, Borcelle Technologies
